RE: Canadian Partners You Should Know: Healthcare

Kelly thanks for this. Even though my team cover Education and Non Profit, I wanted to let you know this is very encouraging. Looking forward to an Education / NPO one in the future, unless I missed one in the past.

Regards,

Gary Mofford

RE: Canadian Partners You Should Know: Healthcare

Gary and team our next Edition of this write up is EDU – hang tight... we are doing all of these in Pub Sector sections by quarter and simply started in HEC due to the completed case studies we had available. We got you!!

This quarter we shared a case study for our EDU Newsletter; next quarter you will have this PYSK (partners you should know) write up to add to the EDU Newsletter as well
Kelly's been a great addition to our internal/external partner marketing efforts

Thanks for reading Gary

RE: Canadian Partners You Should Know: Healthcare

Hey Rob thanks for this feedback; this has been a really good exercise for the PDM team to highlight our partners and build additional presence; we are building case studies/references so we can actually highlight in this sort of document. Kelly's been a god-send given our lack of partner marketing resourcing in Canada until this year – hopefully we will keep her!! We've needed her to be uber flexible with us and she has delivered.

Thanks again Rob this really helps fuel the partner engine..EDU spotlight is next

RE: Canadian Partners You Should Know: Healthcare

Hello Kelly!

I love this!

The case study highlights are a really great way to visualize where these Partners might be able to “plug in” to our future work. Amazing.

Thanks a lot and keep this going! Great stuff.

Re: Canadian Public Sector 3rd Party Blogs: Combatting Covid-19
Hey Kelly,

Is there a way to get access to the blog you linked without registering for it? I'd love to share with Sandy Carter's org.

Best,

Rob (Munroe)

RE: Canadian Public Sector 3rd Party Blogs: Combatting Covid-19 - Final Blog is now Live!

Exciting! Would love to hear results. If substantial, we should consider international duplication using locally relevant partner solutions and customers. Cheers, Max (Peterson)

RE: ATO on AWS – Compliance as Code Webinar

Kelly – thanks for all of your help. We would have never been able to pull this off without you!

Ted (Steffan)

Thank you!
